What will we be learning about in Autumn Term?

- We will be learning about the Vikings and linking in with migration in Geography. We will learn all about their culture, why they came to our country and what happened to them.

- We will be learning about animals and numbers in French and recapping some of our prior conversational knowledge.
- We will take part in some experiments in Science which will link to our topics of SLG and electricity.
- We will be focussed but we will have some fun along the way.
